MADE BY  
*Theuns*

## Sustainability

With over 90 years of experience in working with solid oak, we are one of the top manufacturers in Europe, offering a perfect price-quality ratio. That is why we only work with the best suppliers in Europe, who have certifications to harvest forests in an ecological and responsible manner.

Certification is essential for the sustainability and proper management of forests and should therefore be encouraged and supported.

## Theuns

Meubelfabriek Theuns has grown into a company that focuses on designing, producing, and selling solid oak furniture.

Both the design and production take place entirely in-house at the factory located in Essen, Belgium.

Kris, Elke and Jan Theuns, already the third generation, are leading the company. In addition to developing new collections, there is also a greater focus on projects in collaboration with (interior) architects and brands.

## Made in Belgium

We are proud to have been manufacturing our cabinets and tables in Belgium for over 90 years. This gives us the great advantage of always being able to guarantee the quality. Together with our team of over 50 employees, we ensure that the quality is always guaranteed.

By keeping the entire production process in-house, we can also respond very quickly to projects with tight deadlines.

## Personalizable

Each of our pieces of furniture can be customized in a color of your choice.

We have over 30 different colors in our range, ranging from natural oak to black stained.

In addition to color, we also work with other materials such as Walnut, Beech, and Ash.
